Phil,

This is the guidance document we use. Sorry - it is pretty GSA specific.

Regards,

Ron Allard

Subject: Re: FERC - Capturing energy $$ savings in the rent

I can have a member of my staff visit the building on **June 28th or July 6th** to assess the difficulty of installing data loggers to establish a baseline for the energy use of the existing lights for this building.

Please let me know which date works best and who should be our POC.

Thank you.

Regards,

Ron Allard

> Mark, we had a short meeting today to discuss. The short version is we need you to meet with us, at your earliest convenience, in order to discuss the best way to capture the projected energy saving $$ in the rent. Once we are agreed in house we can set up a meeting with the Lessor. When are you available?
